^{*} New information this week. / Nouvelles données de cette semaine

⁽¹⁾ Refers to the corresponding Bank of Canada Banking and Financial Statistics tables and footnotes. I Renvoie à la note ou au tableau correspondant dans les Statistiques bancaires et financières de la Banque du Canada.

Note to Users

Data for Treasury bills and other short-term paper shown on pages 17 of the Weekly Financial Statistics have been revised for the period November 2006 to August 2011 to reflect revisions by a provincial government.

Beginning January 2011, the Canadian Accounting Standards Board (AcSB) adopted International Financial Reporting Standards (IFRS). Financial institutions adopting IFRS will convert at the start of their first fiscal year following 31 December 2010. In the Weekly Financial Statistics, the most significant effect relates to the inclusion of securitized loans on financial institutions' balance sheets, presented on pages 13, 14 and 15, which were previously shown as loans held by Special Purpose Corporations or NHA mortgage-backed securities. This reallocation of credit primarily affects the January and November 2011 reference months.

Avis aux Utilisateurs

Les données de novembre 2006 à août 2011 relatives aux bons du Trésor et autres effets à court terme figurant à la page 17 du Bulletin hebdomadaire de statistiques financières ont été modifiées pour tenir compte des modifications apportées par une administration provinciale.

Le Conseil des normes comptables du Canada a adopté, en janvier 2011, les Normes internationales d'information financière (IFRS). Les institutions financières passant aux IFRS le feront au début de leur premier exercice suivant le 31 décembre 2010. Dans le Bulletin hebdomadaire de statistiques financières, le principal changement concerne l'ajout des prêts titrisés au bilan des institutions financières, présentées en pages 13, 14 et 15. Ceux-ci étaient auparavant inscrits comme prêts détenus par des sociétés de titrisation ou titres hypothécaires émis en vertu de la Loi nationale sur l'habitation. Cette réaffectation du crédit touche principalement les mois de référence de janvier et de novembre 2011.

Weekly Financial Statistics

Internet

The Weekly Financial Statistics publication (including a schedule for the release of data) is available on the Bank of Canada's website.

Public Information and subscriptions

For information on the contents of the Weekly Financial Statistics, general information or to subscribe to email alerts for this and other publications, contact our Public Information Office:

Le 16 septembre 1997, le calendrier hebdomadaire des adjudications de bons du Trésor du gouvernement du Canada a été remplacé par un cycle de deux semaines et l'échéance des bons du Trésor à trois mois à été prolongée de sept jours. Depuis le 19 mars 1998 (après une période de transition de six mois), le calendrier des échéances suit également un cycle de deux semaines.

(1) The euro is the monetary unit of the European Economic and Monetary Union (EMU), which commenced on 1 January 1999. I L'euro est l'unité monétaire de l'Union économique et monétaire (UEM) européenne qui est entrée en vigueur le 1er janvier 1999.

(2) The Canadian-dollar effective exchange rate index (CERI) replaces the C-6 index as the Bank's new measure of the value of the Canadian dollar vis-à-vis the currencies of its most important trading partners. I L'indice de taux de change effectif du dollar canadien (indice TCEC) s'agit du nouvel indice que la Banque utilise pour mesurer la valeur du dollar canadien par rapport aux monnaies des principaux partenaires commerciaux du Canada. L'indice TCEC remplace l'indice C-6.

CANADA- U.S. GOVERNMENT 10 YEAR BOND YIELDS OBLIGATIONS À 10 ANS DES GOUVERNEMENTS CANADIEN ET AMÉRICAIN WEDNESDAY I LE MERCREDI

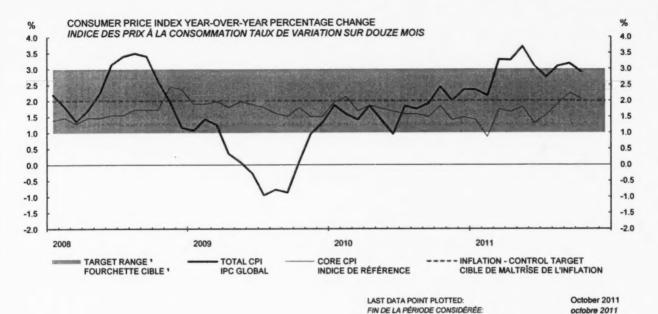

\$US EXCHANGE RATE (right scale)
TAUX DE CHANGE EN DOLLARS É.-U. (échelle de droite)

LAST DATA POINT PLOTTED: FIN DE LA PÉRIODE CONSIDÉRÉE: 23-Nov-11 23-nov-11

The Canadian-dollar effective exchange rate index (CERI) replaces the C-6 index as the Bank's new measure of the value of the Canadian dollar vis-à-vis the currencies of its most important trading partners.

L'indice de taux de change effectif du dollar canadien (indice TCEC) s'agit du nouvel indice que la Banque utilise pour mesurer la valeur du dollar canadien par rapport aux monnaies des principaux partenaires commerciaux du Canada. L'indice TCEC remplace l'indice C-6.

(1) Note: Although the target is expressed in terms of the total CPI, the Bank of Canada bases its policy actions on a core measure of the CPI that excludes eight of the most volatile components (fruits, vegetables,

gasoline, fuel oil, natural gas, mortgage interest, inter-city transportation and tobacco products) as well as the effect of indirect taxes on the remaining components. Nota: Bien que la cibie soil exprimée en fonction de l'IPC global, la Banque du Canada fonde ses décisions de politique monétaire sur un indice de référence qui exclut de l'IPC huit des composantes les plus volatiles (fluits, léaumes, essence, mazout, gaz naturel, intérêts hypothécaires, transport interurbain et produits du tabac) ainsi que l'effet des impôts indirects sur les autres composantes.

Core CPI: The CPI excluding eight of the most volatile components (fruits, vegetables, gasoline, fuel oil, natural gas, mortgage interest, inter-city transportation and tobacco products) as well as the effect of indirect taxes on the remaining components. CANSIM identifier for this series (in level terms) is V41693242. I Indice de référence: Indice des prix à la consommation excluant huit des composantes les plus volatiles de l'IPC (fruits, légumes, essence, mazout, gaz naturel, intérêts hypothécaires, transport interurbain et produits du tabac) ainsi que l'effet des impôts indirects sur les autres composantes. Le numéro d'identification CANSIM de cette série (données exprimées en niveaux) est V41693242.

CPIXFET: The CPI excluding food, energy and the effect of indirect taxes. I IPCHAEI: IPC hors alimentation, énergie et effet des impôts indirects

CONCLINED DDICE INDEX

CPIW. In this measure, each component of the total CPI is multiplied by an additional weight that is inversely proportional to the component's volatility, so that the more volatile the component the less it influences the overall index. I Dans IPCP, chacune des composantes de l'IPC global est multipliée par une pondération additionnelle qui est inversement proportionnelle à la variabilité de la composante, afin que les plus volatiles d'entre elles influencent moins l'évolution de l'indice global.
